

# AOG Management : An Agile & Reliable Support for AOG situation

**AOG Desk Network:** Onsite experts in 40 AOG Desks globally operating 24/7/365.

## Our E-tool ATOL is Providing you with Instant Visibility

**ATOL is a collaborative & pro-active e-tool to perform AOG operations & help communications between all parties. It provides worldwide and real-time visibility on active AOGs.**

- Overview of All active AOGs
- Filter/Search AOGs by specific criteria (PN,PO, Flow, etc.)
- Real-time tracking events
- Traffic light to alert & prioritize tasks

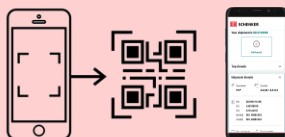

**AOG List Page**

**AOG Details Page**

- Key events tracking (Plan vs. Actual)
- Transit Time Chrono
- Flight Tracking
- Exceptions notifications
- Document Center
- Message Center
- KPI monitoring

**Multi device tool to monitor your AOG with just an internet connection**

Our mobile app allows our drivers to scan AOG boxes in order to provide real-time tracking events & in the meantime, the customer can monitor and track their AOG instantly.

**Multi-site**
