DB SCHENKER | life⁺

GDP-compliant logistics

DB SCHENKER | connect2track
The smart choice for healthcare shipments

Our DB SCHENKER | connect2track IoT platform not only provides real-time transparency of your shipment, but is also GDP-compliant.

Especially with sensitive goods, everything must go according to plan. For the healthcare sector, accuracy, safety, and response time are especially important.

With our GDP-compliant solutions, you can expect transparent and secure shipping from end-to-end.

GDP-compliant IoT platform

The single source of shipment conditions for your entire organization

- Real-time and telemetric monitoring GPS tracking
- Analysis of logged conditions and data trends
- Customizable alerts and notifications
- Flight mode and recycling option
- Data sources along the supply chain combined in a single view

Reach out to your **DB SCHENKER** expert for GDP-compliant telemetric data in your next shipment
