Oslo, 29. October 2024

Information about price adjustments

Years with high inflation and multiple interest rate increases have both increased Schenker's costs and weighed on both property and business investment. Lower purchasing power has dampened consumption, resulting in reduced market volumes.

Our core business is owning, maintaining, and operating a national logistics network- something we are proud to deliver to our customers. To continue delivering a reliable and high-quality service to our customers, a price increase is necessary.

We will adjust our prices from 01.12.2024.

Schenker is committed to deliver high-quality services. We are continuously working to make our operations more efficient.

The price adjustment will take effect as outlined below:

Land transport Norway and Europe

- System and Direct products will increase by 6,9%.

Prices for **Ocean- and Air Freight** will be adjusted in line with the market development.

Fees and surcharges will be adjusted individually. You can find the latest updated prices, fees and surcharges at www.dbschenker.no from 01.12.2024.

Sincerely
Schenker AS

Wolfgang Frank
Head of Land Transport
