As we have previously informed, in connection with the EU's introduction of ETS, a schedule was provided for how much of the shipping companies' CO2 emissions should be covered by purchased quotas. Thus, quotas should be purchased for 40% of emissions for 2024, for 70% of emissions in 2025, and for 100% in 2026.

Our current ETS surcharge in 2024 is based on the 40% that shipping companies purchase quotas for in 2024, and we are charged fees on this basis. This will therefore increase to 70% from January 1, 2025.
