As we have previously informed, in connection with the EU's introduction of ETS, a schedule was provided for how much of the shipping companies' CO2 emissions should be covered by purchased quotas. Thus, quotas should be purchased for 40% of emissions for 2024, for 70% of emissions in 2025, and for 100% in 2026.

Our current ETS surcharge in 2024 is based on the 40% that shipping companies purchase quotas for in 2024, and we are charged fees on this basis. This will therefore increase to 70% from January 1, 2025.

The ETS Surcharge is updated monthly

The minimum applies where the ETS surcharge is charged

As we have previously informed, in connection with the EU's introduction of ETS, a schedule was provided for how much of the shipping companies' CO2 emissions should be covered by purchased quotas. Thus, quotas should be purchased for 40% of emissions for 2024, for 70% of emissions in 2025, and for 100% in 2026.

Our current ETS surcharge in 2024 is based on the 40% that shipping companies purchase quotas for in 2024, and we are charged fees on this basis. This will therefore increase to 70% from January 1, 2025.

The ETS Surcharge is updated monthly

The minimum applies where the ETS surcharge is charged

As we have previously informed, in connection with the EU's introduction of ETS, a schedule was provided for how much of the shipping companies' CO2 emissions should be covered by purchased quotas. Thus, quotas should be purchased for 40% of emissions for 2024, for 70% of emissions in 2025, and for 100% in 2026.

Our current ETS surcharge in 2024 is based on the 40% that shipping companies purchase quotas for in 2024, and we are charged fees on this basis. This will therefore increase to 70% from January 1, 2025.

The ETS Surcharge is updated monthly

The minimum applies where the ETS surcharge is charged
