

Energy and Currency Correction – Land Transport

Energy *

Based on the price development for diesel and electricity, we have a variable energy adjustment. This is updated monthly.

DB Schenker Land Transport			
Valid from	System/Direct International	System Domestic	Direct Domestic
11.11.24	30,18 %	16,70 %	20,21 %

Currency Correction *

Due the fact that the Norwegian krone is changing against foreign currency, we have a variable currency adjustment on our prices. This is because our costs for export and import shipments are in foreign currency, and that our revenues are primarily in Norwegian kroner. We correct the currency surcharge monthly. In the event of significant currency charges, we reserve the right to make extraordinary adjustments to the currency within a month.

DB Schenker Land Transport			
Valid from	Product	Land	Currency Correction
18.11.24	Land International	Sweden	25,67 %
		Denmark	50,54 %
		Rest of Europe	50,58 %

- Surcharge is valid for all our international land products - System, Direct and Parcel

Schenker reserves the right to make printing errors.
