

International dangerous goods services

Dangerous goods services in international logistics are based mainly on IMDG classification for sea transportation. The dangerous goods services indicated in the table herein are charged according to actual gross mass, UN identification number, and packing group.

The consignments are also subject to a handling surcharge of €106.00 per consignment per UN identification number. The following UN identification numbers are subject to a surcharge of €48.00 per UN identification number. Limited Quantities (LQ) and Excepted Quantities (EQ) are charged by classification.

The dangerous goods services do not include storage in ports or terminals. The dangerous goods services require special agreement in case goods are to be transported by road via Tornio-Haaparanta. This method of transport is related to stowage category of goods and type of vessel needed in sea transport. Dangerous goods transportation is subject to classification-specific limitations which may vary per country. A binding schedule for **DB SCHENKER | system premium** products will not be provided for shipments containing dangerous goods in international groupage transportation. Certain dangerous goods are shipped mainly on weekends, in which case the indicative **DB SCHENKER | system** schedule is subject to changes.
